

Green Cross Russia is a non-governmental organization, the member of the International Green Cross Association. It was established in 1994.

Today it is one of the most influential ecological organizations in Russia.

The President of Green Cross Russia is a well-known expert in engineering ecology Sergei Baranovsky, Doctor of Science, Professor, the member of the Russian Academy of Natural Sciences, the member of the State Commission on Chemical Disarmament.

Green Cross Russia Mission:

- broad public involvement in the country's nature conservation activities;
- environment protection activities;
- education of the population to live and develop in accordance with the laws of nature, and preserve for future generations relying on the same resource potential of the planet that mankind has today.

Green Cross Russia Motto:

Cooperation Instead of Confrontation.

Green Cross Russia takes a constructive approach to environmental and nature conservation problems.

Green Cross Russia does not only bring various problems to the attention of governmental authorities and society, but makes proposals how to address them.

Green Cross Russia has its regional and local affiliates in more than 20 subjects of the Russian Federation.

Green Cross Russia Programs include:

- Environmental education of the public;
- Overcoming Harmful Environmental Consequences of Arms Race;
- Social and Medical Rehabilitation and Assistance to Population in Ecologically Unfavorable Territories;
- Pure Water of Russia.

Green Cross Russia hosts each year international conferences on the environmental education and public forum-dialogues on the Implementation of the Chemical Weapons Convention by Russia and "Nuclear Power, Society, Safety". In chemical weapons stockpiling areas it organizes public hearings which are attended by experts, environmental scientists, heads of federal agencies and foreign scientists.

In the regions where chemical weapons are stockpiled and destruction facilities are located Green Cross Russia has established its public outreach and information offices for education activities among the communities.

Within the Social and Medical Program Green Cross Russia conducts medical examination of children and organizes annual ecological summer camps to improve their health.

Green Cross Russia is largely involved in the activities of the international ecological movement and is engaged in joint projects with Green Cross Switzerland, Sweden, Denmark and Global Green USA, and other ecological organizations of several foreign countries and CIS.

Senior officers of Green Cross Russia have been active in drafting the Ecological Doctrine of the Russian Federation.
